

# 2008 Colorado Rally Cup Bulletin #1

## Concerning co-driver championship and points schedule:

### 1.0. Definition of Co-drivers championship:

- A. The Colorado Rally Cup co-driver's championship will be a single championship that pays out points in the same points schedule as the driver's championships with the exception of RallyCross points. Co-drivers will be rewarded the 5 bonus points for attending the RallyCross, but are not required to enter the event.

Purpose: We want to reward co-drivers for their dedication to the sport and their contribution to the teams. With how early the program is though it is not likely possible to award three different co-driver championships. Some co-drivers expressed interest in how switching classes during the season would affect points and by only having one championship this is not an issue.

For RallyCross events there is no a purpose for a co-driver in the race. However we wanted to reward co-drivers that chose to come to the RallyCross for the purpose of exposure, support, and education. This will also help to give a larger possible points, which should minimize the risk of a tie score.
